Hi Nick,

That is a question for Wes.

Wes, CLP can provide 48 TAT on inorganic metals analysis. There is about 35k removal money left on the Region 6 allocation.

Subject: ASB-R6

Ray/Myra,

How are things looking for R6 response to the Gold King Mine release? ASB is looking at CLP inorganic lab capacity and TAT for supporting R8, R6 and R9.

Is this something that might be useful?

Thanks,

Nick
